Call for papers (ICPMSAM'26)

The first edition of the international conference on physicochemistry, materials sciences & applied mathematics will be held at the 20th August 1955 university of Skikda, on October, 14 & 15, 2026. This conference provides a platform for academics, researchers and PhD students to present their research results. Authors are invited to contribute to the conference by submitting articles illustrating research results, projects in the field of Astrophysics & Theoretical physics; Crystallography & materials Physics; Surfaces and interfaces Physicochemistry & molecular physics; Energy, renewable energies & environment; Applied computing and simulation for physics; Mathematics for physics and signal processing; Innovative materials technology & nano-sciences; Biophysics, biomaterials and medical physics...Etc.

Aims & Scope

ICPMSAM'23 aims to provide a forum to present and discuss innovations, trends, and to offer researchers the opportunity to share their knowledge and discuss future perspectives and directions.

Topics

Conference includes, but not limited to the following topics:

1. Astrophysics & Theoretical physics;
2. Crystallography & materials Physics;
3. Surfaces and interfaces Physicochemistry;
4. Energy, renewable energies & environment;
5. Applied computing and simulation for physics;
6. Mathematics for physics and signal processing;
7. Innovative materials technology & nano-sciences;
8. Biophysics, biomaterials and medical physics;

Participation method

The ICPMSAM'25 conference will be held presentially or virtually (hybrid).

Participation Fees

- ✓ Academics: 10000 DZD
- ✓ PhD Students: 5000 DZD
- ✓ Industrial and business: 7000 DZD

Important dates

Open abstract submission:	01-06-2026
Abstract submission deadline:	20-08-2026
Notification of Acceptance:	15-09-2026
Early registration deadline:	01-10-2026

Conference Date: 15-10-2026

Submission Guidelines

For any requests concerning the full paper submission, please do not hesitate to contact the ICPMSAM23 secretariat at: ICPMSAM23@univskikda.dz

All papers must be written in English, 3 to 4 pages maximum, submitted in pdf or MS word format, formatted according to the conference template. Please download the template from: <http://www.univ-skikda.dz/ICPMSAM25/> Presentation can be shared either in English or in French. Please download the template from: <http://www.univ-skikda.dz/ICPMSAM23>.

Articles publication

Accepted and presented, peer-reviewed abstracts will be published in the proceedings Journal of Fundamental and Applied Sciences (JFAS).

Authors accepted abstracts are encouraged to submit full papers for publication in the conference journal.

Skikda City

Rusicada is the ancient name of **Skikda** which is given by the Phoenicians. It is an eastern Algerian coastline city. It covers an area of 4 137,68 km² that stretches from **Marsa** in the east until **Oued Zhour** to the bottoms of the massif of **Collo** to the west. It is known for its beaches, citrus or-
 chards (oranges, mandarins, lemons, etc.), its strawberry culture, olive oil and fishing. After independence, it be-
 came an important industrial zone and its ports from the
 main ports in Algeria. In fact, the coastline of Skikda is
 dotted with beaches of fine sand. To the east, it is the big
 beach of **Larbi Ben M'hidi** (Jeanne d'Arc Beach), to the
 West in the direction of **Stora** several picturesque beaches:
Stora, Great Beach, and so on. Some beaches were unfor-
 tunately greatly diminished due to the installation of the
 petrochemical complex like beaches of **Larbi Ben M'Hidi**
 and those of **Stora** following the extension of its port. The
 beach of **Sidi Akacha** is well located in the municipality
 of **Marsa** in **Skikda**. This beach is a piece of **paradise** on
 earth where the vandals have passed through this place.
 One must imperatively speak of **Oued Tangi** which is con-
 sidered a historical region by the roman sites that exist
 there .Also, the beach of **Oued Bibi**, in the town of **Tama-
 lous** nestled 700 meters above the Mediterranean, reveals
 another corner of paradise.

The **Great beach**, in **Aïn Zouit**, is a veritable enchanting
 site located about 20 km west of Skikda. It offers visitors
 a breathtaking panorama. It is a favorite spot, as witnessed
 by the rush of the thousands of summer visitors. in addi-
 tion to the enchanting bay of **Tamanart**, one of the undis-
 puted pearls located 15 km from **Collo**.
