Call for Paper

This Version of *International Conference on Electromechanical Engineering (ICEE2026)* provides a valuable international platform to present and discuss emerging trends, innovative technologies, and recent scientific advances in sustainable energy engineering and intelligent engineering systems. Both theoretical and applied research contributions are welcomed for submission.

The conference aims to bring together researchers, academics, engineers, industry professionals, policymakers, and innovators from around the world to exchange knowledge, foster interdisciplinary collaboration, and share practical solutions addressing global challenges related to energy transition, sustainability, climate resilience, and smart technologies.

Special encouragement is given to graduate students, young researchers, and early-career scientists, who are invited to present their latest research findings, innovative methodologies, and technological developments in various engineering and sustainability-related fields.

ICEE2026 is expected to attract a wide range of participants from regional and international institutions and will serve as an excellent forum for scientific networking, collaborative research opportunities, and industry-academia interaction.

The first edition of *ICEE2026* will be held in the beautiful Mediterranean city of Skikda, Algeria, and organized by the Faculty of Technology, University of Skikda, in December 2026. The conference program will include keynote lectures, technical sessions, workshops, poster presentations, and special sessions delivered by distinguished researchers and experts from the national and international scientific community.

The conference will address a broad spectrum of topics related to energy engineering, sustainability, and advanced technologies, covering both theoretical and practical aspects, including design, modeling, optimization, implementation, monitoring, intelligent systems, and real-world industrial applications.

The conference topics include, but are not limited to, the following areas:

- Renewable Energy Systems and Sustainable Power Generation
- Smart Grids, Artificial Intelligence and Digital Energy Technologies
- Green Hydrogen and Advanced Energy Storage Systems
- Sustainable Thermal Systems and Energy Efficiency
- Sustainable Materials and Emerging Energy Technologies
- Climate Resilience, Environment and Sustainable Development
- Energy Policy, Economics and Sustainable Innovation
- Sustainable Civil Engineering and Smart Infrastructure
- Mechatronics, Robotics and Intelligent Automation
- System Maintenance, Fault Diagnosis and Reliability Engineering

Paper submission

Full papers should describe original work, in 6 pages, be written in English and be submitted via: ices2026@univ-skikda.dz

All accepted, registered and presented papers will be published in the proceedings of ICEE'2026 conference, which will include an ISBN.

Selected papers will be published in extended version in prestigious international journals.

Important dates

Full Paper submission deadline: **September 15th, 2026**
Notification of acceptance: **September 25th 2026**
Conference date: **December 14-15, 2026**

Committees

Honorary chairs

Prof. Toufik BOUFENDI
(President of the University of Skikda)

Dr. Nesrine AMMOUCHI
(Dean of the faculty of Technology)
